PRESTO BURST GENIE 4.0 DIGITAL

PRESTO BURST GENIE 4.0 DIGITAL

- Presto Burst Genie 4.0 is an automatic Bursting Strength Tester device used to measure the Bursting strength & bursting factor of packaging materials like paper, cardboard, and corrugated sheet to rupture under pressure.
- The automatic feature enables precise and consistent measurements, reducing human error and increasing efficiency. Key applications include quality control in Paper & packaging industries.

FEATURES

- Hydrostatic Pressure application
- Bigger LCD Display
- Test Mode
- Multiple test unit
- Auto test Function
- Auto Peak Detection
- Auto Reversal Mechanism
- Calculated Test Result
- Pass Fail Criteria
- Auto Average Calculation
- Bar Graph
- Easy Calibration
- Low Maintenance
- Robust Design

HYDROSTATIC PRESSURE APPLICATION

- The tester typically uses either a hydraulic system to apply pressure to a sample until it bursts.
- As per TAPPI standard hydraulic system is known for its accuracy and consistency in pressure application.

BIGGER LCD DISPLAY

- Presto provides 5" Liquid Crystal Display in burst genie 4.0.
- Bigger LCD Display provides real-time monitoring and results, such as the pressure applied and the bursting point.

TEST MODE

- Burst genie 4.0 provides Customer to select test mode selection feature According to test specimen for batter accuracy.
- There are two test mode provided in the machine –
- Paper Mode • Board mode

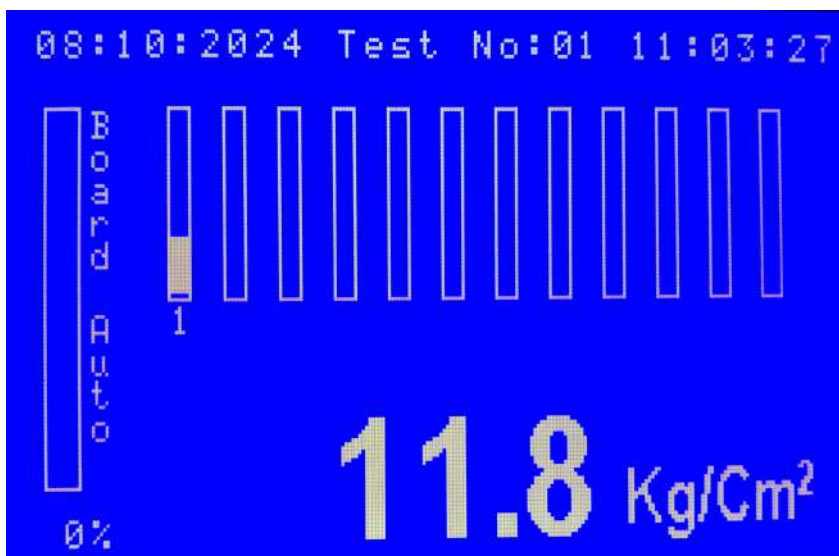

AUTO TEST FUNCTION

- Burst genie 4.0 provides Single push button operation.
- Customer can perform whole test process with a single push button.
- This models can automatically increase pressure and record the bursting strength without manual intervention, improving test consistency and reducing operator error.

AUTO PEAK DETECTION

- This models can automatically detect and record the peak bursting strength without manual intervention.
- It will improve test consistency and reduce operator error.

AUTO REVERSAL MECHANISM

This models will automatically stop after bursting of specimen and Machine diaphragm will return to home position without manual intervention.

CALCULATED TEST RESULT

- This bursting machine provides accurate results like bursting strength tester and Auto calculated bursting factor.
- Automatic calculation of results by this burst genie 4.0 enhances accuracy, eliminates manual errors, and speeds up the testing process.
- It ensures consistent, reliable data, simplifies analysis, and improves efficiency.

```
** Test Results-Burst Value **  
(1)02.06 (5)02.59 (9 )02.31  
(2)02.33 (6)02.33 (10)02.35  
(3)02.64 (7)02.24 (11)02.34  
(4)02.64 (8)02.46 (12)02.36  
Average of Burst Value : 02.15  
Accepted Results: 02 Out of 12  
  
Down-Next
```

PASS/FAIL CRITERIA

- This burst genie 4.0 provides feature to set pass/fail limits to the operator.
- It simplifies decision-making, reduces interpretation errors, and enhances quality control by providing consistent, objective results.

```
*** Operator Settings ***  
7.Set Acceptance Limit HIGH  
8.Set Acceptance Limit LOW  
9.Set GSM  
  
Raw ADC Reading: 044900  
  
Up-Prev Menu
```

AUTO AVERAGE CALCULATION

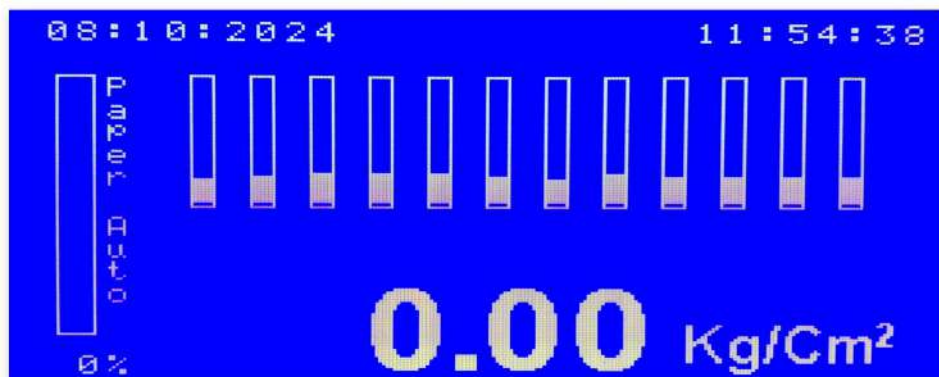

- This burst genie 4.0 provides feature to Auto calculation of average bursting factor & bursting strength for accepted range.
- It simplifies decision-making and enhances quality control.

```
** Test Results-Burst Factor**  
(1) 13.7 (5) 17.3 (9) 15.4  
(2) 15.5 (6) 15.5 (10) 15.7  
(3) 17.6 (7) 14.9 (11) 15.6  
(4) 17.6 (8) 16.4 (12) 15.7  
Avg. of Burst Factor: 14.3  
Accepted Results: 02 Out of 12
```

```
** Test Results-Burst Value **  
(1)02.06 (5)02.59 (9)02.31  
(2)02.33 (6)02.33 (10)02.35  
(3)02.64 (7)02.24 (11)02.34  
(4)02.64 (8)02.46 (12)02.36  
Average of Burst Value : 02.15  
Accepted Results: 02 Out of 12
```

BAR GRAPH

- This machine provides display of 12 Sample bar graph for batter analysis.
- Bar graphs in testing devices provide a visual representation of data, making it easier to analyze trends and compare results.
- They enhance clarity, simplify complex data, and support quick decision-making.

MULTIPLE UNIT

Multiple testing units feature available in this model for bursting strength test-

- Kg/cm²
- PSI
- BAR
- kPa (Paper Mode)
- mPa (Board Mode)

EASY CALIBRATION

Easy calibration feature provided with instrument on Paper & board mode separately for better accuracy

MAINTENANCE

- Presto burst genie 4.0 requires easy & low maintenance.
- This machine comes with standard maintenance kit that helps customer to maintain the machine easily.
- A low and easy maintenance feature in machines reduces downtime, minimizes repair costs, and extends equipment lifespan.

Thank you customers for choosing us as your partners in growth !
