41 YEARS 1983-2024 TIME TESTED TESTING INSTRUMENTS

Fill Height Gauge

Model PFGH - 0168

Fill Height Syringe is a valuable laboratory tool that can save time and improve accuracy during container fill height and volume measurements. This unique device allows an operator to easily adjust the fill level of containers to be evaluated to a standard predetermined level. Using the adjustable gauge, an operator can simply set the depth of the pipette for the appropriate level. Excess fluid can then easily be drawn off to the end of the pipette. Easy to use
Used to adjust water level in bottle to predetermined fill height

Key Specifications:

Tube Range	50 mm / 150 mm
Least count	10 mm
Material	Stainless Steel
Flate Stopper	Dia 30 ±5 mm
